Discovering Polar Regions.

(This weeks Learning 10.1.22)

Today we explored ice! We talked about animals who live in cold places such as the polar regions

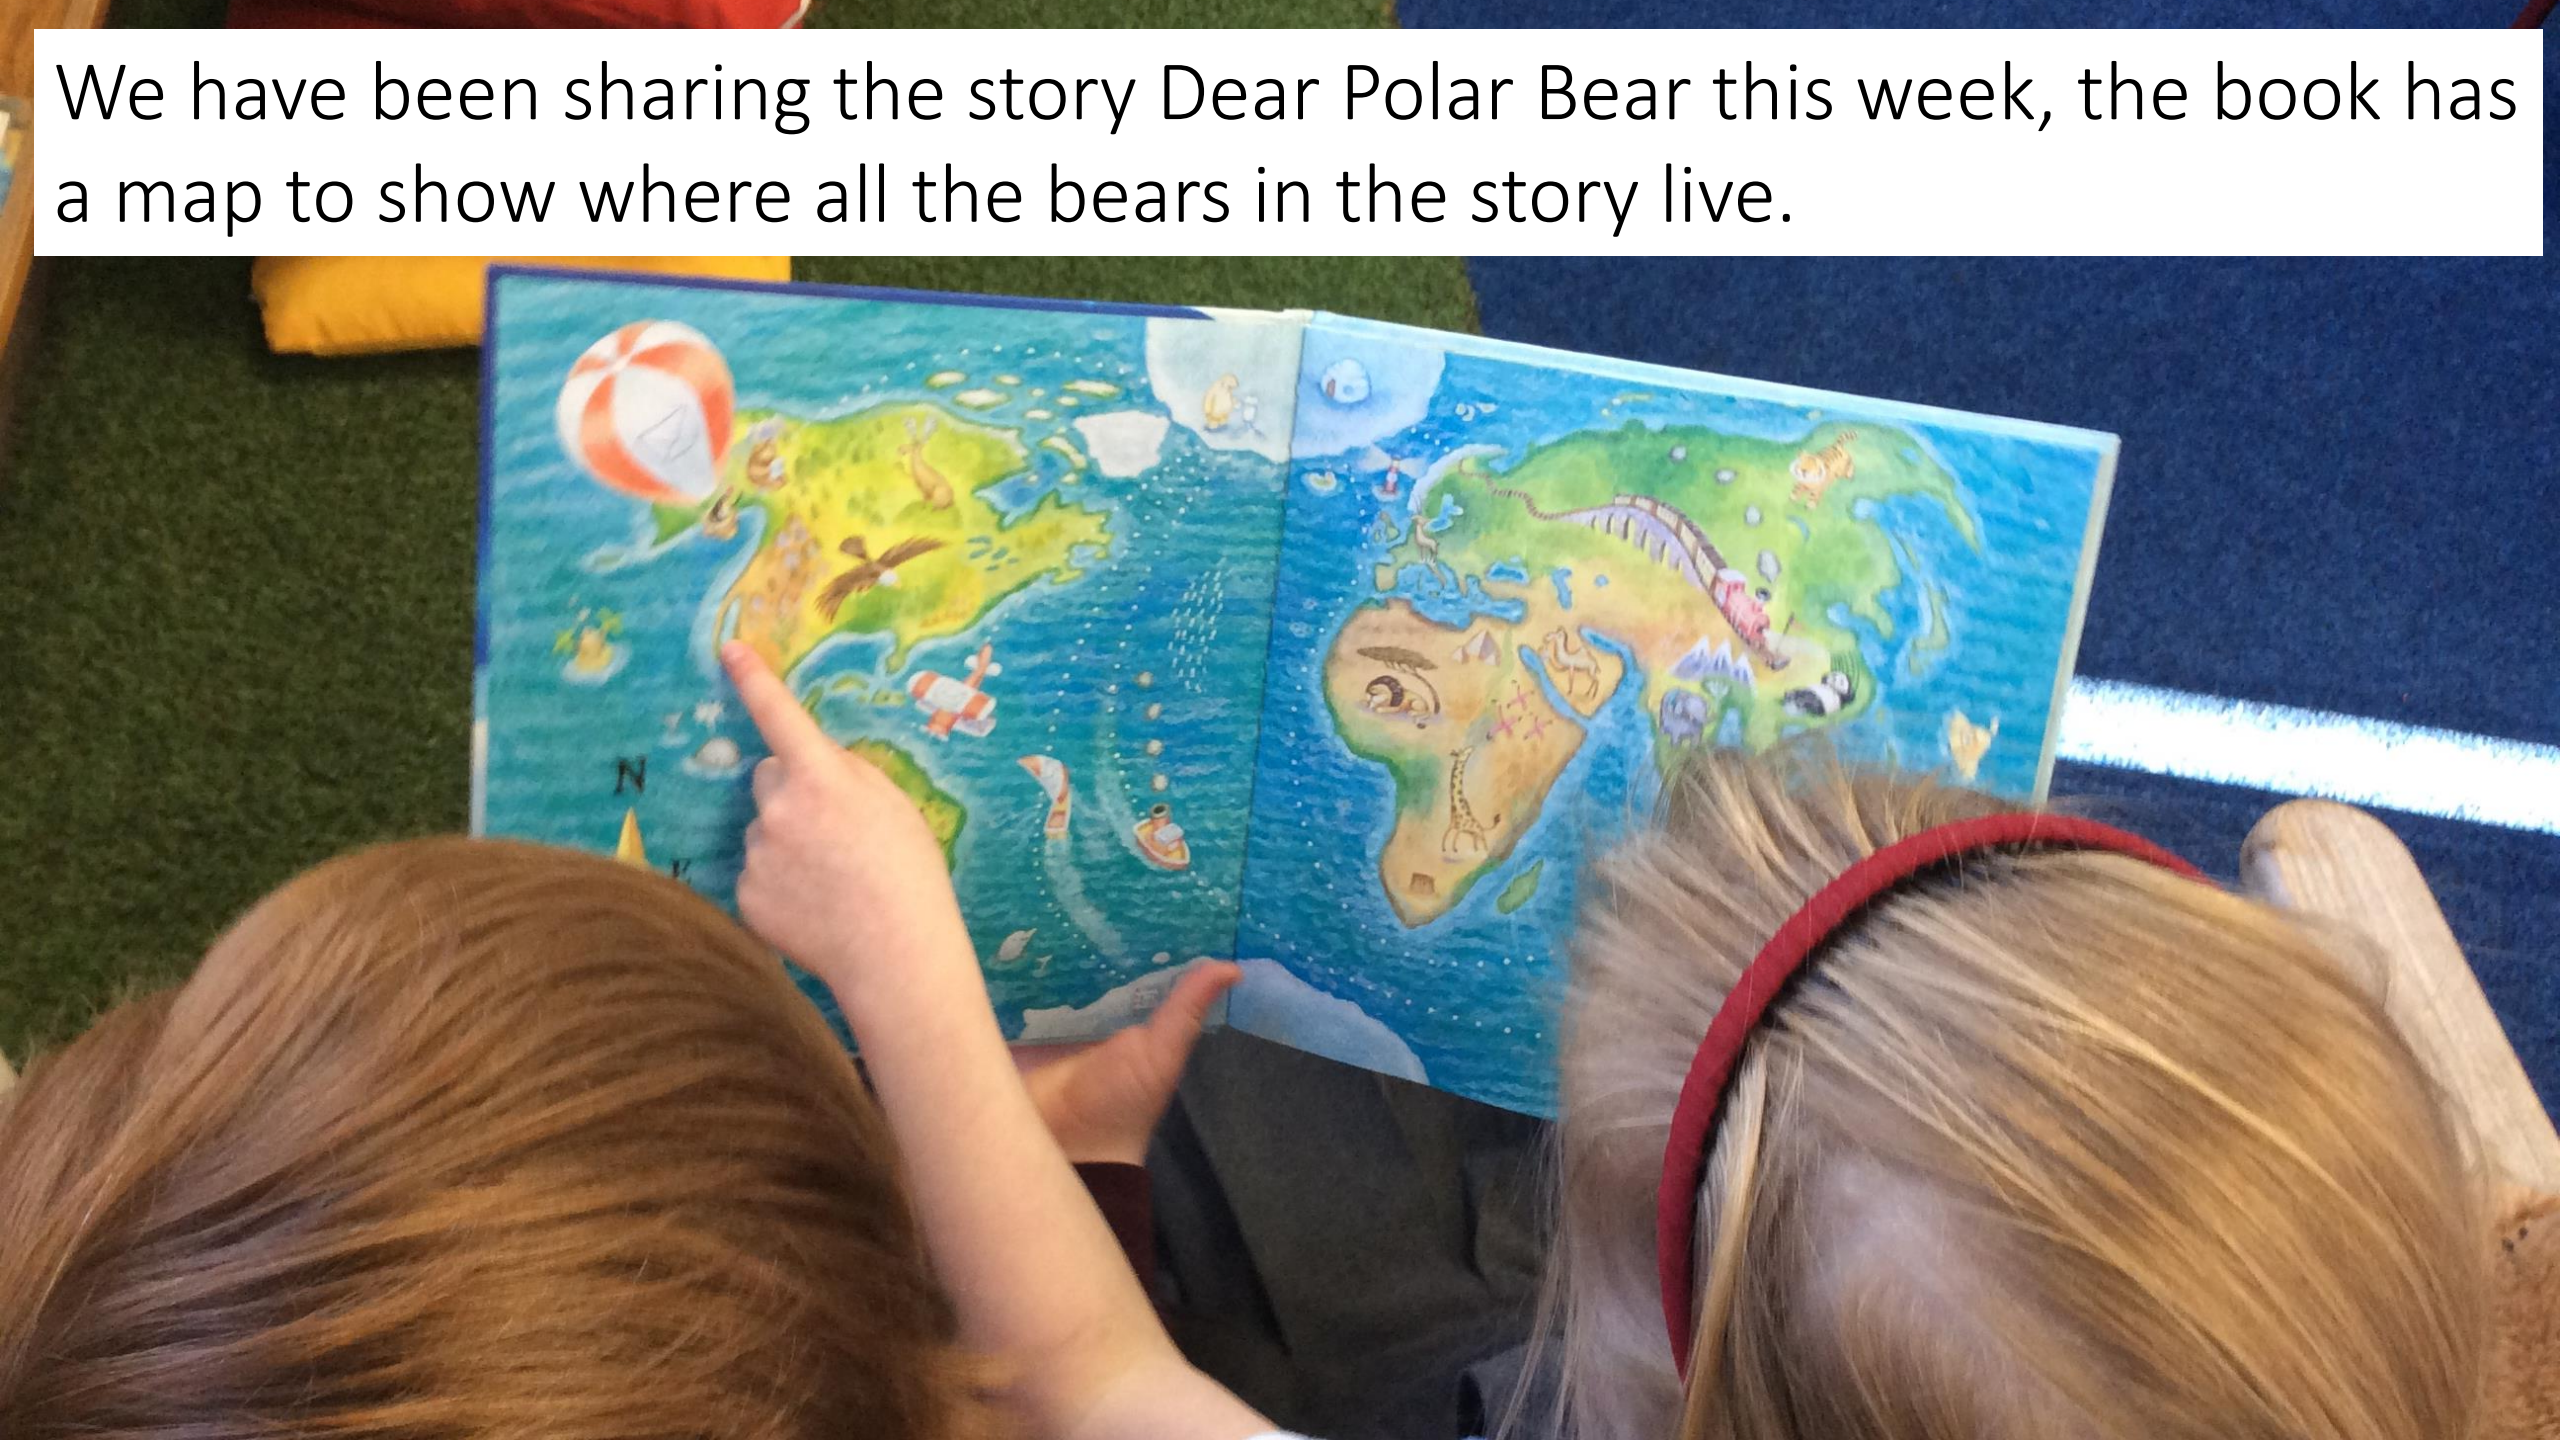
We looked in books to find out about animals that live in cold places .

Exploring a frozen landscape!
We left the ice over night and discovered in the morning it had refroze.
We watched throughout the day as the sun began to melt it.

ST LEONARD'S PRIMARY
SCHOOL

Making our own small world artic landscape using artic animals fabrics and materials found in class.

We have been sharing the story Dear Polar Bear this week, the book has a map to show where all the bears in the story live.

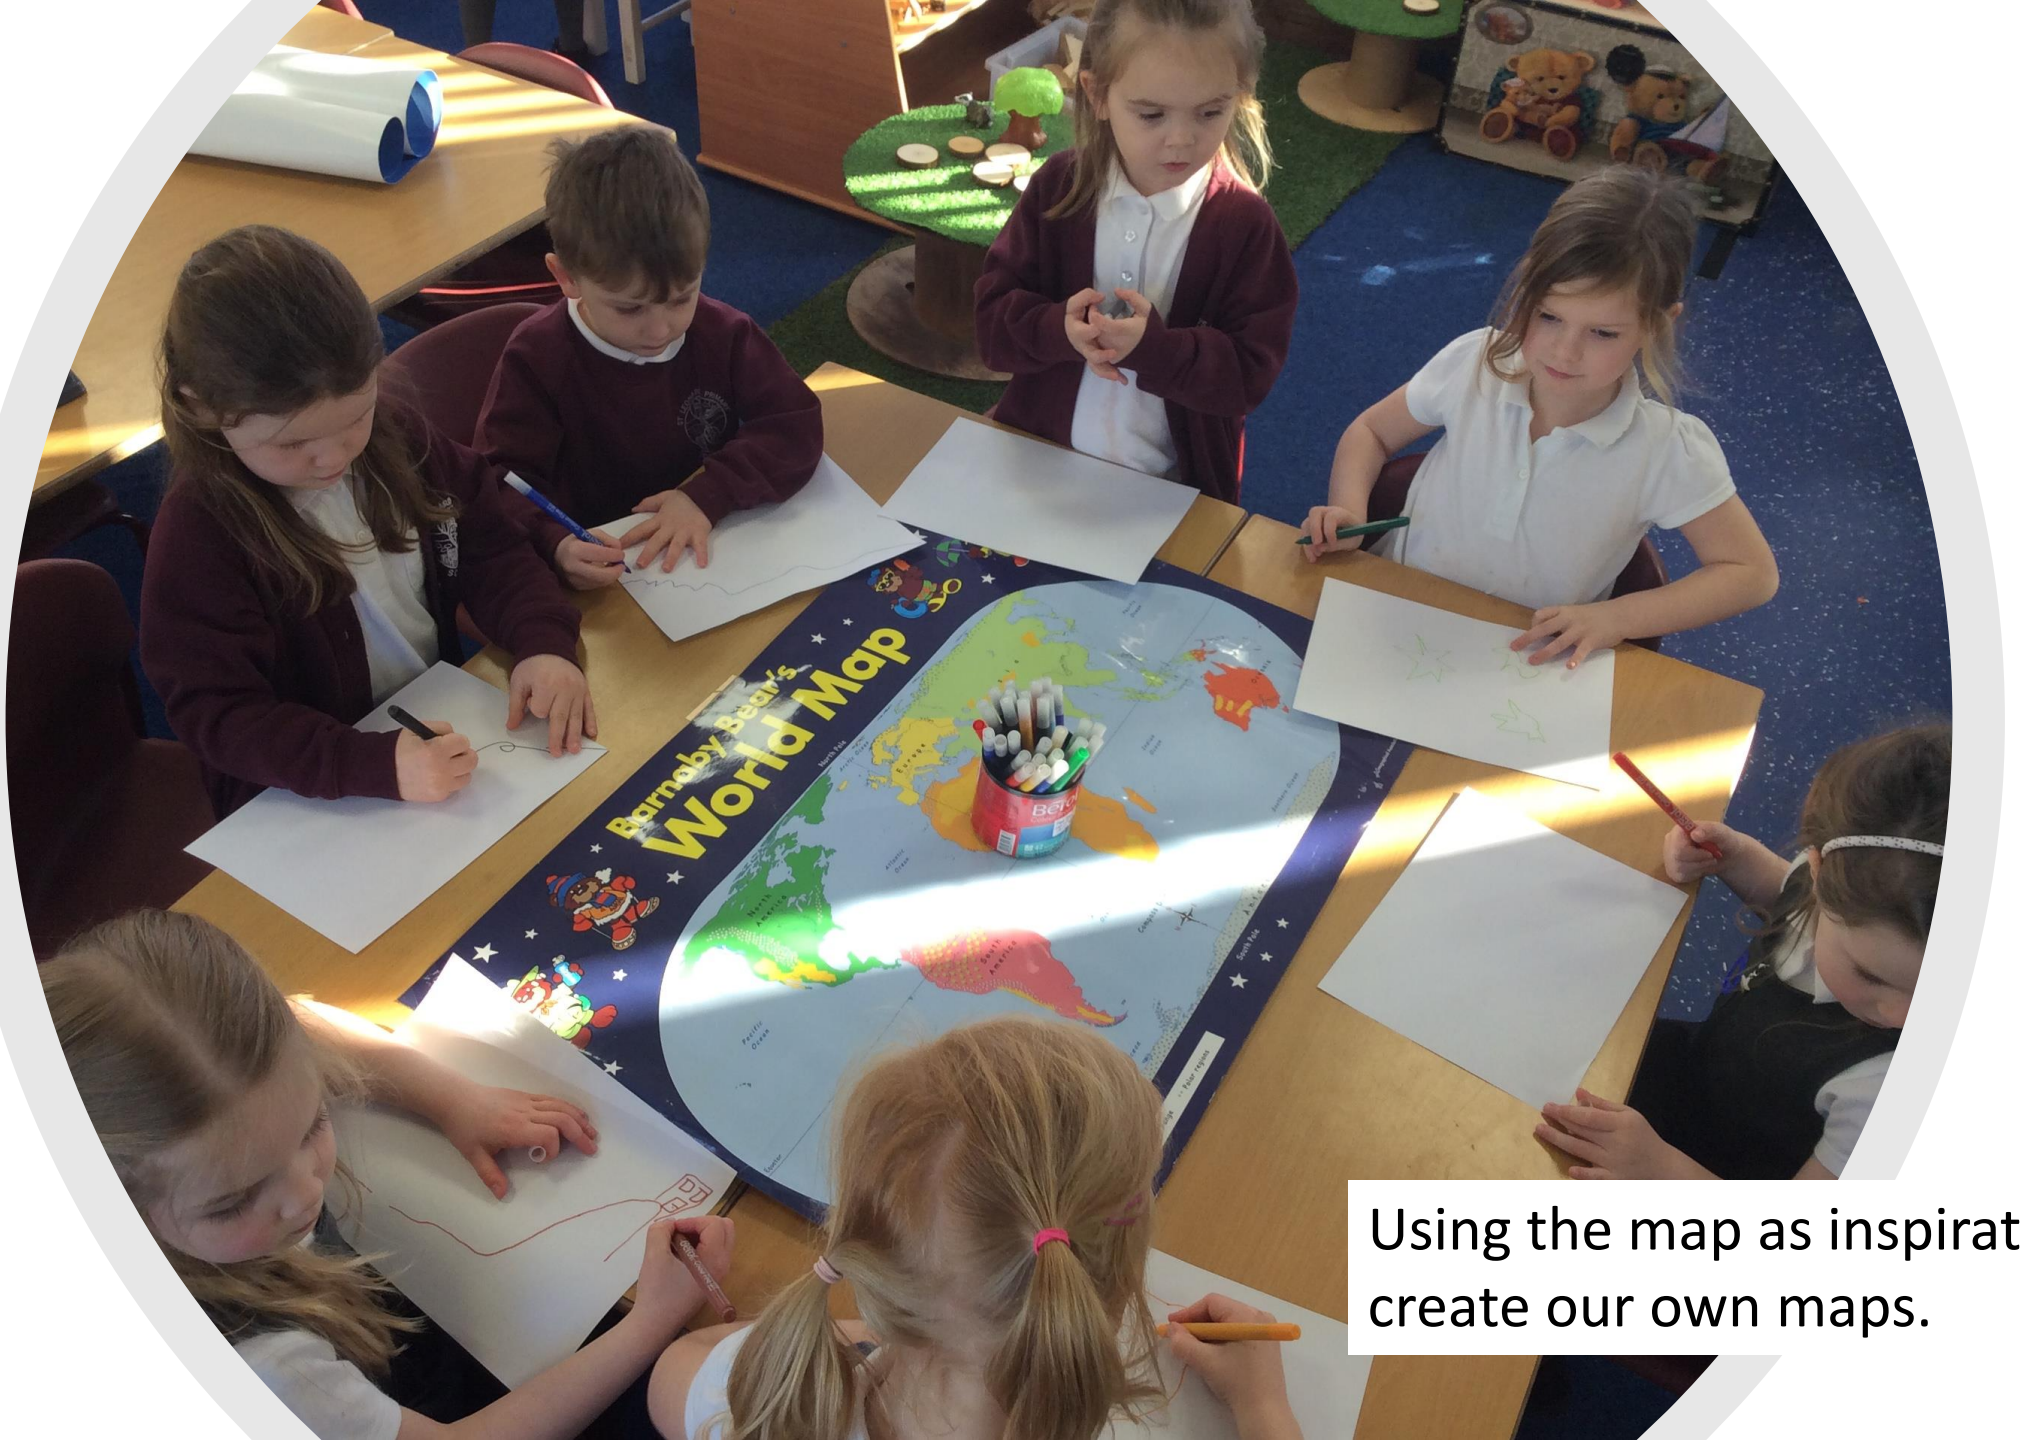


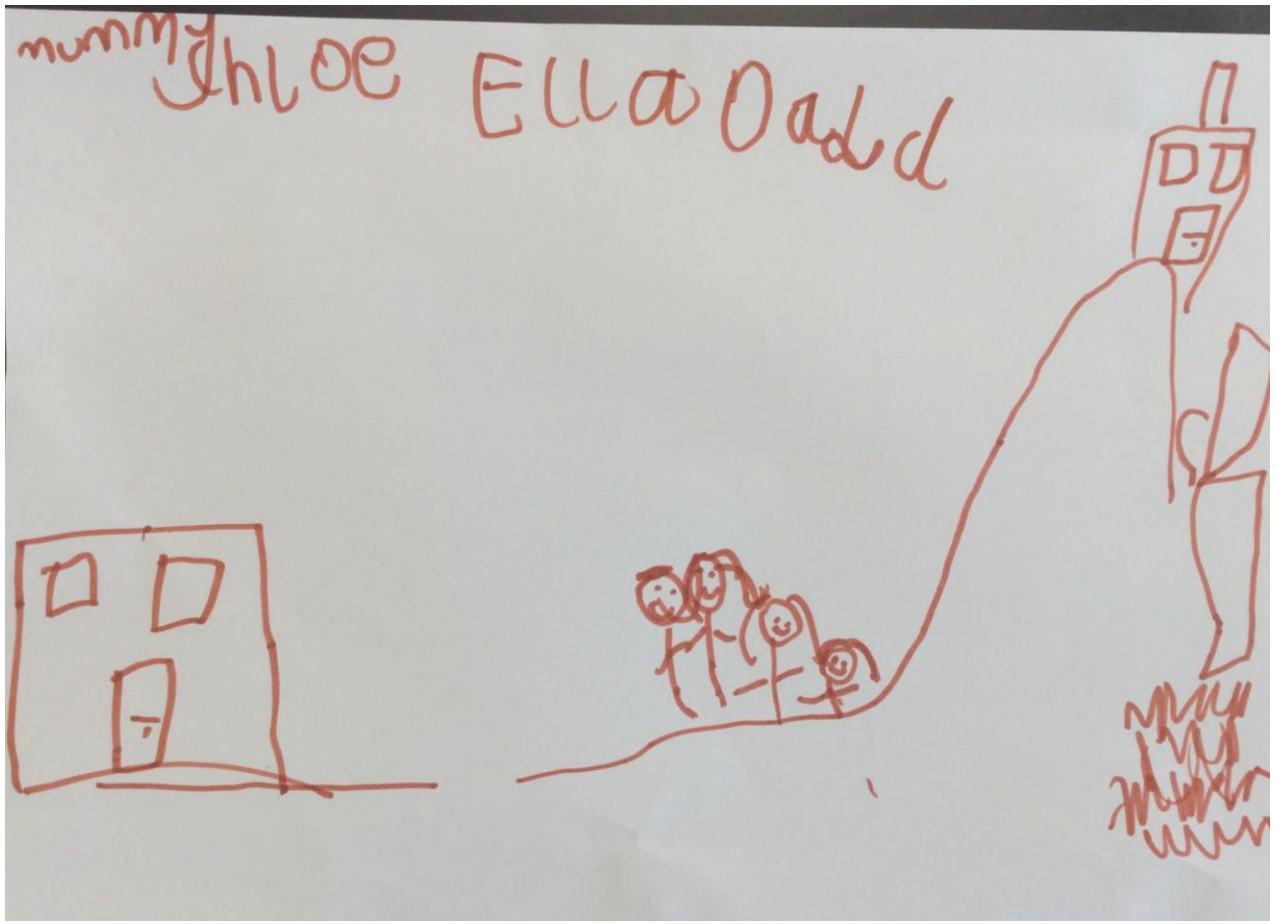
We used the globe to find where Polar Bear lives.

Using Bee bots to explore a map of the UK

Placing animals in the correct place on a map of the world.

Looking at a map of the world.



Using the map as inspiration to create our own maps.


- Making our own maps during child-initiated play. (A map from home to school)
